/file/upload API resource to create a temporary URL to a file of your own, just like when you upload a video source file.

- If you host your own file, the file will be fetched and the subtitles URL will point to a local copy.

language

string
required

Language of the added subtitles.
Allowed

values are
ISO-639-3
alpha-2 and
alpha-3
language
codes.Ex:
en

format

SRT

string
required
Defaults to SRT
Data format
SRT only is
supported, if
you have an
other format
please
convert it to
SRT.
